

U.S. NATIONAL

HEALTH + IT WEEK

Catalyzing Change

OCTOBER 8–12, 2018

Help Us Catalyze Change in the Opioid Epidemic

Participate in HIMSS's Virtual March on the States as we join forces to stamp out the opioid epidemic.

Add your name to HIMSS's Virtual March as we call on policymakers to:

1. Enact or broaden adoption of electronic prescribing of controlled substances
2. Integrate prescription drug monitoring programs into electronic health records
3. Leverage telehealth to increase access to treatment and address provider shortages
4. Create an integrated data infrastructure across public health, behavioral health, justice and human services to enhance timely opioid crisis response and prevention.

It only takes a few minutes to have a big impact — just enter your zip code and HIMSS's [Legislative Action Center](#) will guide you through the rest.

Join [HIMSS's Virtual March on the States](#) today.

JOIN NOW >

Encourage your network to join the march. Here's a sample post:

I urged my state legislators to address the opioid crisis affecting our communities every day. Join me and make your voice heard through the @HIMSS Virtual March! <https://bit.ly/2N5Ed6t> #NHITweek
